EXPERIENCE

[A Lab Inc., Upwork](#) — *Team Lead*

May 2021 - Sept 2024

Led a team of developers and designers, managing project planning, execution, and delivery while ensuring alignment with client requirements. Provided technical guidance and fostered team collaboration to meet deadlines and deliver high-quality solutions.

[Upwork](#) — *Freelance Software Developer*

Jan 2020 - April 2024

Coordinated project activities, managed team workflows, and maintained clear communication with clients. Played a key role in ensuring projects stayed on track, addressing potential issues, and reporting progress to clients

[SkyWalk](#), Dhaka — *Associate Android Developer(Intern)*

May 2019 - August 2019

Supported the Android development team by contributing to app development, testing, and bug fixes. Gained practical experience in coding, debugging, and implementing new features while learning industry best practices.

EDUCATION

Ulster University, UK – MSc in Computer Science and Technology

1st of October, 2024 - December, 2025

North South University, Dhaka — BSc in Computer Science and Engineering

May 2015 - December 2019

TECHNICAL SKILLS

Programming & Data:

Python, R, SQL, Java, C/C++, PHP • Data Structures • Analytical Problem Solving

Artificial Intelligence & Machine Learning:

Supervised, Unsupervised & Reinforcement Learning • ML Model Development & Evaluation • Feature Engineering • Predictive & Decision-Support Systems

Data Science & Analytics:

Data Cleaning & Pre-processing • Exploratory Data Analysis (EDA) • Statistical Analysis • Insight Generation

Data Visualisation:

Matplotlib, Seaborn • Clear Technical & Business Reporting

Databases & Big Data:

SQL • NoSQL • ObjectDB • MongoDB • Neo4j • InfluxDB • Apache Spark • Hadoop • Pig

Cloud, Containers & DevOps (Graduate Level):

Microsoft Azure (Fundamentals) • AWS (Basic Knowledge) • Docker • Kubernetes • Containerised Application Concepts

Software Engineering:

OS(windows) Application Development • Android Application Development • Web Application Development • REST API Integration

Project Delivery & Management:

Agile & Waterfall Fundamentals • Project Planning & Coordination • Documentation & Reporting • Risk & Resource Awareness

Professional & Transferable Skills:

Media Buying(Facebook, Instagram, Google) • Team Collaboration • Stakeholder Communication • Decision-Making • Structured Problem Solving

RELEVANT CERTIFICATION

Python Programming Language (Stanford University)

[Code in Place](#)

VOLUNTEER EXPERIENCE

Blood Donor, Quantum Foundation, Dhaka,
Bangladesh.

Volunteer - NSU ACM Student Chapter

Volunteer - IEEE NSU Student Branch
